Parent information via the new Schul-App

Dear parents,

we would like to let you know that in the future we will inform you about news and appointments from our school with a modern, up-to-date app.

In this way we are making an important contribution to environmental protection, as we are saving enormous amounts of paper and printer cartridges.

However the best thing is: Thanks to the better organization, we save time that directly benefits your children.

Important: The app is not intended to replace the communication with the parents - but serves general information purposes.

We have decided to use the Schul-Info-App of Stay Informed GmbH from Merzhausen (Freiburg im Breisgau).

Your advantages:

- You receive important information and appointments directly on your smartphone.

- Both parents with custody rights as App users can be added to the system and they will speedily receive all information on their smartphone.

- You maintain an overview of all information from the school as it is entered in the App in an orderly fashion. It is not possible to lose or accidentally delete them.

- You can simply save appointments from the App to your personal smartphone calendar.

- You can fill out response forms directly on your smartphone and send them back to us.

- You can enter your child as beeing absent via the App.

- The App is GDPR-compliant, advertising-free and free of charge for parents.

- Unlike other common chat programs, your messages and data are not visible to the other parents.

- Your data will not be commercially evaluated, sold or passed on to unauthorized third parties.

- Parents who do not own a smartphone can access all information and events via the browser-based Web App.

And this is how it works (Parent Mobile App):

1. Open the Google Play Store (Android phones) or the App Store (iPhones) on your smartphone.

2. Enter in the search field: stay-informed-app or scan the QR Code:

(App Store)   (Google Playstore)

3. Click on "Download".

4. Click on "Open" after the installation.

5. Go to "Register now".

6. Enter the following ID-Number: af18376143

7. Click on "Connect".

8. Enter your login information (your name, child's name, e-mail address, password, etc.).

9. You will then receive - after we, the Anne-Frank-Grundschule have checked it - the release and you can then log in. This check is done once when you log in for the first time. Afterwards, the App is always immediately available to you.

Your team from the Anne-Frank-Grundschule

And this is how it works (Parent Web App):

1. We the Anne-Frank-Grundschule enter your email address in the administration web portal.

2. You will receive an invitation email with a link to the Web App registration page. This link is valid for 7 days. On the registration page you need to set a password. It will also ask for a code, which you will receive from us, the Anne-Frank-Grundschule personally.

3. After registration, you will have access to the Web App.

4. You will receive an email when new notifications are sent, however to read them you must log in to the Web App.

5. You log in with your email address and password.

Your team from the Anne-Frank-Grundschule
